Smoky Varieties
a Specialty

Chas. B. Sawyer

A Prayer

Grant me, O Lord, this day to see
The need this world may have for me;
To play the friend
Unto the end;
To bear my burden and to keep
My courage, though the way be steep.

Grant me, O Lord, to set aside
The petty things of selfish pride;
To toil without
Too much of doubt;
To meet what comes of good or ill
And be a gracious neighbor, still.

Grant me, O Lord, to face the rain
And not bitterly complain;
Nor let a joy
My calm destroy;
But teach me so to live that I
Can brother with each passer-by.

—Edgar Guest.

"Not a tree
A plant, a leaf, a blossom, but contains
A folio volume. We may read, and read
And read again, and still find
Something New."

This is certainly very true, as we are always finding something new in the Gladiolus world. Each year as we receive numerous catalogs we find many new varieties; some very fine ones, some good, and some not so good. That is, we find them so after the different ones are tested. So from year to year we add new ones, and gradually drop the old ones when they do not come up to our standard, or when something similar in color is introduced, and an improvement on the former variety.

At this writing we have just finished digging the finest—Well you know the rest as you have heard it so many times, but really this has been one of the best years for producing quality bulbs that we have ever experienced. Our stock was all Semesan treated this year, and is exceptionally fine.

We try to add from year to year as many new varieties as possible, especially the better ones. This year we have had some very fine ones. Among these the Scotch varieties are particularly outstanding. Bertie Snow has proved to be one of the most beautiful lavenders in the world. King George, a red, with a prominent creamy white throat, is very striking. Duchess of York, Carrick, Comrade, Gertrude, and Field Marshal are all outstanding "smoky" ones, which we will offer in the near future. Queen Mary, Mrs. Galbraith, Mrs. Cuthbertson and Marvel are also well worth growing.

Of all the new German introductions this year, we liked Mrs. Anna Pfitzer the best. Truly a wonderful white. Ava Marie, Wodan, and J. VanTets were very good, but Stuttgardia was somewhat of a disappointment.

While passing we must not forget the Holland Variety Yvonne, a truly charming flower. A white, faintly blushed with a delicate pink. While a deeper blotch adds materially to its appearance. If anyone asked me which was the most beautiful Glad I had seen I would say Yvonne.

Among our new American varieties probably Mother Machree has created more comment than any other, and it justly deserves it all. A marvelous combination of colors. Other outstanding ones are Colorado, Miss Des Moines, Angel's Dream, Lily of Gold, Loyalty, Bridal Veil, etc.

CHAS. B. SAWYER IN 1928 GARDEN

We are using a different listing this year, and think you will like much better.

If you don't find the variety you are looking for, ask us about it. We have lots of Gladiolus that are not listed, as we haven't a sufficient quantity to list.

Our New Introductions For This Year

DUSKY QUEEN (Martin). We have purchased the entire stock of this variety from Mr. F. S. Martin. As the name indicates this is a "smoky". Color, mahogany red, with bright red feather in the throat. The whole flower overlaid with a deeper shade; giving it a smoky effect. The name is very fitting. Large flower, perfectly placed on the stalk; with five and six blooms open at once. A very unusual new variety, and well worth growing. Don't miss this one if you are fond of the "smokies." **Large bulbs only this year, $2.50 each.**

PEARL O' MINE (Zimmerman). Here is a very unusual new "prim." A butterfly type with an extra long hood. Color, pale yellow, with a self colored throat blotch of pure ivory. Chalcedonia yellow, according to Ridgway. Petals are slightly recurved and frilled. A good sized, wide open flower; despite the hood. It surely will be in demand, when better known. **Large bulbs, $2.00 each.**

Our 1928 Introduction

MARTHA CHAPPELL. A deep violet, with a creamy-white throat blotch. Five to seven florets open at once on a strong, straight stem. Admired by everyone who visited our garden this season. As the stock is still very small, we are offering, **Large bulbs only, at $1.00 each.**

We have shown it at a number of shows and it has attracted lots of attention, and is admired by all. This variety is up in price this year, as it should be; as it was introduced at far too low a price. If you haven't tried it, you have missed something really worth while. MARMORA (Errey). An Australian variety of real merit. One of the very finest of smokies, and probably the best of the Errey productions. Color of a lavender gray, with a conspicuous blotch of purple. 8 to 10 blooms open at once on a strong stem. Creates a sensation wherever shown, and is a consistent winner at all the leading shows in the country. We regret very much that we cannot release it this year, as the F. H. B. requires us to hold it until 1930.

MARGARET GLENDINNING (S). Similar to Rose Ash in color, but lighter, and more rose pink. Much better placement on the stalk than its parent, Rose Ash. Exceedingly beautiful. **(L. ea. 25c).**

A Bulb

I placed it in the earth—this bulb of mine—
And from its narrow prison-house of night
It struggled forth to reach the air and light;

And as it rose and blossomed to the sight,
Its absolute perfection seemed divine!

The Clover

Some signs of the lily, and daisy, and rose,
And the pansies and pinks that the Summertime throws
In the green grassy lap of the medder that lays
Blinkin' up at the skies through the sunshiney days;
But what is the lily and all of the rest
Of the flowers, to man with a hart in his brest
That was dipped brimmin', of the honey and dew
Of the sweet clover-blossoms his babyhood knew?

I never set eyes on a clover-field now,
Er fool round a stable, er climb in the mow,
But my childhood comes jest as clear and as plane
As the smell of the clover I'm sniffin' again;
And I wunder away in a barefooted dream,
Whare I tangle my toes in the blossoms that gleam
With the dew of the dawn of the morning of love
Ere it wept ore the graves that I'm weepin' above.

And so I love clover—it seems like a part
Of the secerdest sorrows and joys of my hart;
And wharever it blossoms, oh, thare let me bow
And thank the good Lord as I'm thankin' Him now;
And I pray to Him still for the stren'th when I die,
To go out in the clover and tell it good-bye,
And lovin'ly nestle my face in its bloom
While my soul slips away on a breth of purfume.

Sunshine

Ever try to crack a smile
When ye'r feelin' glum?
Er when ye'r all out o' sorts
Jes' to whistle some?
Ef y' do, fust thing y' know
Y' wont feel so glum,
Things 'll kinder jes' clear up,
An' the sunshine come.

Ever try to look content
When ye'r sky is black?
Ever try to look for flow'rs
Growin' long your track?
Ef y' do, fust thing y' know
Sky'll jes' git blue,
And ye'll see es' lots o' flow'rs
Smilin' up at you.
